SCROLL COMPRESSOR

Model AQS_W (14 - 122 TR)

With partial heat recovery, full heat recovery, four-pipe, and hydraulic module options.

SCREW COMPRESSOR

Model FOC_{WATER.E} / FOC_{WATER.E-INV} (60- 490 TR)

Energy efficiency, comfort and reliability, and environmental respect.

MAGNETIC OIL-FREE COMPRESSOR

Model TECS-W/L-E (80 - 1200 TR)

Pinnacle of modern cooling technology, combining magnetic levitation, variable frequency control, and oil-free operation.

MAGNETIC OIL-FREE COMPRESSOR

Model TECS-W/L-M (100 - 155 TR)

Built with a modular design, oil-free magnetic levitation compressor, and advanced control technology.

CENTRIFUGAL COMPRESSOR

Model CCS / CCS-INV (500 - 1000 TR)

High efficiency, advanced design, reliable operations and easy installation.

MAGNETIC OIL-FREE COMPRESSOR

Model TWM-4-TL (100 - 740 TR)

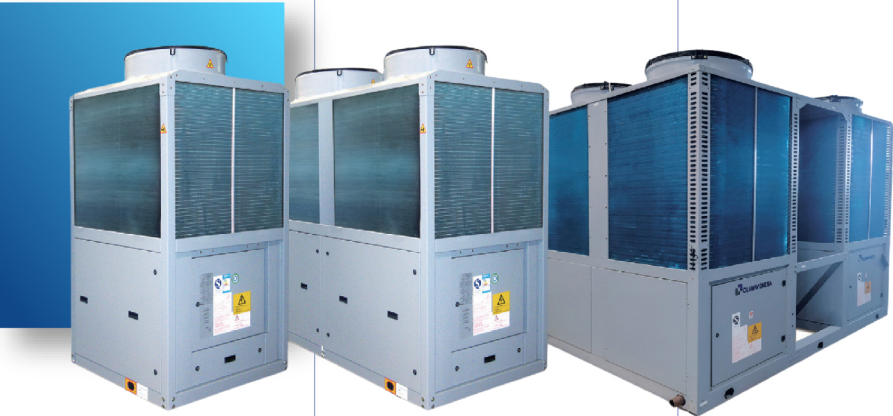

Redefines energy-efficient cooling with advanced magnetic levitation compressors, oil-free design, and smart inverter control.

MAGNETIC OIL-FREE COMPRESSOR

Model TWM-TR (350 - 1800 TR)

Cutting-edge, oil-free centrifugal chillers powered by magnetic levitation and variable-speed drive technology.

SCROLL COMPRESSOR
Model AQS.E (12 - 94 TR)
Offers versatile, energy-efficient solution for year-round air conditioning and heating.

SCREW COMPRESSOR
Model ERACS.C (70 - 575 TR)
High-efficiency screw chiller that has the latest technology from Italy.

SCREW COMPRESSOR
Model ERACS.C-INV (80 - 430 TR)
High efficiency screw chiller that has the latest technology from Italy.

SCREW COMPRESSOR
Model TECS2 (66 -336 TR)
Equipped with Climaveneta's magnetic levitation technology.
